## **CONGRESSIONAL & INTERGOVERNMENTAL**

**FY2019 Budget Update:** The House on Thursday passed a package of two 2019 appropriations bills, marking the halfway point in its quest to pass the 12 annual spending bills needed to fund the government. The bill passed mostly along party lines, in a vote of 217-199. The two chambers have until the October 1 to pass all 12 appropriations bills, iron out the differences and send them to the president’s desk for signature, a feat it has been unable to accomplish on time in over two decades. Without signed spending bills or a stopgap measure, the government will shut down. The portion of the bill for EPA and Interior Department funding rings in at \$35.3 billion. **The EPA would get \$7.96 billion, a cut of just \$100 million below the fiscal 2018 level but more than \$2.2 billion higher than what Trump had proposed for the agency.**

**Rep. Salud Carbajal (D-CA-24):** Brent Maier received an inquiry this afternoon from Johanna Montiel in the Congressman’s DC Office asking if the date they provided to us of Thursday, August 23, still works for EPA. After checking in with Water Division’s David Albright, Brent let Johanna know that the date of August 23 does work for EPA and let her know that a final response to the Congressman’s incoming letter requesting a public meeting should go out on either Friday of this week or Monday of next week.

**Congressional Outreach on Bonita Peak Mining District:** At the request of Superfund’s David Yogi, Brent Maier shared a July 2018 Bonita Peak Mining District Interim Sludge Management Fact Sheet with Congressional staff in the offices of Senators John McCain and Jeff Flake and Rep. Tom O’Halloran as well as Navajo Nation officials.

**Recap of Recent Intergovernmental Meetings:**

**Meeting with San Diego County Water Authority** - On Tuesday, July 17<sup>th</sup>, Karen Fligger, Office of Water WIFIA staff, joined OIR and Region 9 in a meeting with Bob Yamada, Water Resources Director of the San Diego County (CA) Water Authority, to discuss planned modifications to the Lewis Carlsbad Desalination Plant in Carlsbad, CA, and whether the project would be a good fit under the requirements and objectives of the WIFIA program. The County, working closely with privately-owned Poseidon Water, is seeking financing assistance to build a new intake structure to help the facility better support the drinking water needs of 1.3 million people as well as the region's vast agricultural economy through a multi-year water supply diversification plan, major infrastructure investments and forward-thinking policies that promote fiscal and environmental responsibility. Though the July 31 deadline for this year's WIFIA letters of interest is fast approaching, WIFIA staff strongly encouraged the San Diego County/Poseidon partnership to quickly develop and submit their letter of interest (LOI) package for this round of funding. Region 9 Water Division's Doug Eberhardt and Roger Gorke along with OPA's Brent Maier participated in this headquarters meeting via teleconference.
